WILSON'S REQUEST FOR STANLEY PUT IN PLAIN TERMS

The Language Used by President Leaves No Doubt of Wishes.

"The Rev. E. L. Miley, First Christian church, Hickman, Ky.: I carnestly desire the election of Gov. Stanley to the United States Senatc. Apparently it knocks into a eocked hat the attack of the Republican organs in Kentucky on the letter written by the President to Senator J. C. W. Beckham on the eve of the latter's departure for Kentucky to open the campaign, which, the G. O. P. partisans endeavored to make it appear, studiously avoided mentioning Gov. Stanley's candidacy. This letter was merely one wishing good luck to Senator Beckham.

President Wilson has a number

of times expressed his entire confidence in Gov. Stanley and counts him among the friends of the administration, whose election the President earnestly hopes for, according to information from Wash-

PEACE TERMS.

Let us hope, writes a Chicago correspondent, that the German people are at last coming from people are at last coming from under the spell of Kaiserism and Kulturism. Yet if such is the case is due to the drubbing they are ceiving at the hands of our boys. our demands must be uncondiional surrender, together with the bolition of militarism, and uickest way to bring about such a condition is to keep hammering while the iron is at a white heat. For approximately five years the eyes of the world have been centered upon this human mixture, and there isn't a stopping point this side of complete victory. Cardinal Gibbons was to have been publicly honored in his Cathedral at Baltimore by way of celebrating the attainment of a half century of service as a Bishop. The ecclesiastical pageant which was being arranged under the supervision of Rev. John Nainfa, of St. Mary's Seminary, Baltimore—the same St. Mary's in which Cardinal Gibhons as a young man was prepared for the priesthood—would have heen one of the most imposing ever held in this country.

His house is furnished with the utmost simplicity. The parlor shows the Cardinal red in its wall recoration and in its furniture, but the back parlor, also used as a reception room, is furinshed in blue.

All bis life the Cardinal has heen a very light eater and a great walk-er. It used to be a standing joke for bim to invite a new priset in the diocese to come and take a walk with him. The Cardinal's little stroll generally occupied an hour, through the upbill and down dale streets of Baltimore, and the ground was covered at a stride and psec

SHOULD REALIZE THIS DUTY.

One of the urgent duties of tho times, and one to which we have called attention some months ago, Catholic church is a dignity attained h ya scant few out of a multitudo of priests. In addition to that, to be a James Gibbons is to be a remarkable man without reference to titular dignity. And James Cardinal Gibbons, Archbishop of Baltimore, intensely loyal American, is ali of these.

Ho is of surprisingly easy access for a man of his position, wide range of duties and years. He can be seen almost any day he is in Baltimore at his home after 10 o'clock in the morning. One has only to send in his name and business, and it is extremely rare that the Cardinal does not immediately burry downstairs from his study to receive his ranged for the newly arrived in the ranged for the newly arrived in the public schools in many cities, while practically all the larger settlements provide such classes, both for mature men and women and for the younger generation. The settlement ls naturally the agency best quali-fed to do such work, for the edu-cation of the immigrant is specificaly a social task and can most profitably be conducted from this point of view. A purely academic knowledge of English and the rudiments of citizenship are but a sorry substitute for the broader education which the trained social worker is qualified to impart.

An interesting example of how the public schools co-operated with an aircsdy established Immigration Bureau is furnished by the city of Cleveland, where the following experiment was made several years ago, when the participation in the work of training for citizenship was not as general as it is today. Immigration Buroau," we read in a report of the Chairman of that of-fice, "was glad to co-operate with the Board of Education in helping to liberate the immigrant from this handicap (ignorance of the English language) by the teaching of English. Several weeks before the opening of the elementary public night schools in the fall the bureau interviewed in person and by letter means of best meeting these needs presented the problem of teaching English and its best mesns o solution. At one session a practical demonstration was given on tho platform on which a group of foreign speaking nien first lesson in English, and at each session ample opportunity in their organization. This method is outlined hero be causo, although it has heen super-

seded by many extensions in nu merous cities, it nevertheless contains msny helpful suggestions to heginners. The task itself is one which should not be confined to these rudiments of training, nor should its execution he limited to the public schools, civic agencies non-Catholic settlements. must he hroadened in scope (and it has been) so as to embrace all that will guide the immigrant over the chasm which separates him from a thorough understanding of American life and American institutions It must also be engaged in by Catbolics much more extensively han has been done heretofore There are few of our higher academies, universities, etc., located in industrial centers which could not engago in citizenship training as a social endeavor and as a matter of charity. And for that matter many of our Catholic socio ties, parish and independent or-ganizations, could make their meeting halls centers for this sort of training.

A survey of the situation should be made by parish and other societies in co-operation with the pastors of foreign tongue parishes, this survey to cover all possibilities for classes, meeting places, number of pupils, available men for teaching, etc. An executive committee should be in charge, and it should solicit the aid of foreign horn physicians heir prestige with their countrysuch aid. This survey will be followed by selection of teachers. vbose forces can be increased by volunteers from the outside and by ady workers. Representative Sherley has attained a place of leadership in the House of Representatives which has rendered him of the highest service to the country, and I know him so well that, in common with his many friends, I have been very much distressed to have it appear that he was in any way an enemy of the just claims of the laboring men. It is with this in view that I have taken the liberty of expressing my satisfaction with your action.

Equally timely is "Christianity's Message in the Hour of Sorrow," written by the Rev. Albert J. Muntsch, S. J., of St. Louis University. The subject of the pamphet is the Catholic doctrine of immortality, the consolation it offers to those who have jost a joved one in the world struggle, and the comort to be derived from the Catholi view of suffering. The ''message' is well written and should find a fixe distribution. Copies are only five cents and may be ordered through the Rogers Book Company.
